

**Public Employer  
Health Emergency Plan  
for the  
Village of Newark Valley**

\_\_\_\_\_ April \_\_\_\_\_ 9, 2021 (date of approved plan)

This plan has been developed in accordance with NYS legislation S8617B/A10832.

## Promulgation

This plan has been developed in accordance with the amended New York State Labor Law section 27-c and New York State Education Law paragraphs k and l of subdivision 2 of section 2801-a (as amended by section 1 of part B of chapter 56 of the laws of 2016), as applicable.

This plan has been developed with the input of Village of Newark Valley, Public Works Supervisor and Clerk/Treasurer, as required by the amended New York State Labor Law.

No content of this plan is intended to impede, infringe, diminish, or impair the rights of us or our valued employees under any law, rule, regulation, or collectively negotiated agreement, or the rights and benefits which accrue to employees through collective bargaining agreements, or otherwise diminish the integrity of the existing collective bargaining relationship.

This plan has been approved in accordance with requirements applicable to the agency, jurisdiction, authority, or district, as represented by the signature of the authorized individual below.

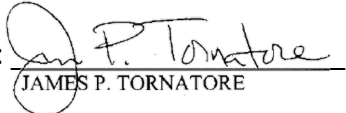

---

As the authorized official of the Village of Newark Valley, I hereby attest that this plan has been developed, approved, and placed in full effect in accordance with S8617B/A10832 which amends New York State Labor Law section 27-c and New York State Education Law paragraphs k and l of subdivision 2 of section 2801-a (as amended by section 1 of part B of chapter 56 of the laws of 2016), as applicable, to address public health emergency planning requirements.

Signed on this day: April 9, 2021

By: James P. Tornatore

Title: Mayor, Village of Newark Valley

Signature:   
JAMES P. TORNATORE

## Purpose, Scope, Situation Overview, and Assumptions

### Purpose

This plan has been developed in accordance with the amended New York State Labor Law section 27-c and New York State Education Law paragraphs k and l of subdivision 2 of section 2801-a (as amended by section 1 of part B of chapter 56 of the laws of 2016), as applicable. These laws were amended by the passing of legislation S8617B/A10832 signed by the Governor of New York State on September 7, 2020, requires public employers to adopt a plan for operations in the event of a declared public health emergency involving a communicable disease. The plan includes the identification of essential positions, facilitation of remote work for non-essential positions, provision personal protective equipment, and protocols for supporting contact tracing.

### Scope

This plan was developed and is applicable to the Village of Newark Valley. This plan is pertinent to a declared public health emergency in the State of New York which may impact our operations; and it is in the interest of the safety of our employees and contractors, and the continuity of our operations that we have promulgated this plan.

### Situation Overview

On March 11, 2020 the World Health Organization declared a pandemic for the novel coronavirus which causes the COVID-19 severe acute respiratory syndrome. This plan has been developed in accordance with amended laws to support continued resilience for a continuation of the spread of this disease or for other infectious diseases which may emerge and cause a declaration of a public health emergency.

The health and safety of our employees and contractors is crucial to maintaining our mission essential operations. We encourage all employees and contractors to use [CDS Guidance for Keeping Workplaces, Schools, Homes, and Commercial Establishments Safe](#). The fundamentals of reducing the spread of infection include:

- Using hand sanitizer and washing hands with soap and water frequently, including:
  - After using the restroom
  - After returning from a public outing
  - After touching/disposing of garbage
  - After using public computers, touching public tables, and countertops, etc.
- Practice social distancing when possible
- If you are feeling ill or have a fever, notify your supervisor immediately and go home
- If you start to experience coughing or sneezing, step away from people and food, cough, or sneeze into the crook of your arm or a tissue, the latter of which should be disposed of immediately.
- Clean and disinfect workstations at the beginning, middle, and end of each shift

- Other guidance which may be published by CDC, the State Department of Health, or County health officials.

### Planning Assumptions

This plan was developed based on information, best practices, and guidance available as of the date of publication. This plan was developed to largely reflect the circumstances of the current Coronavirus pandemic but may also be applicable to other infectious disease outbreaks.

The following assumptions have been made in the development of this plan:

- The health and safety of our employees and contractors, and their families, is of utmost importance
- The circumstances of a public health emergency may directly impact our own operations.
- Impacts of a public health emergency will take time for us to respond to, with appropriate safety measures put into place and adjustments made to operation to maximize safety
- The public and our constituency expects us to maintain a level of mission essential operations
- Resource support from other jurisdictions may be limited based upon the level of impact the public health emergency has upon them
- Supply chains, particularly those for personal protective equipment (PPE) and cleaning supplies, may be heavily impacted, resulting in considerable delays in procurement.
- The operations of other entities, including the private sector (vendors, contractors, etc.), non-profit organizations, and other governmental agencies and services may also be impacted due to the public health emergency, causing delays or other disruptions in their services
- Emergency measures and operational changes may need to be adjusted based upon the specific circumstances and impacts of the public health emergency, as well as guidance and direction from public health officials and the governor
- Per S8617B/A10832, 'essential employee' is defined as a public employee or contractor that is required to be physically present at a work site to perform their job
- Per S8617B/A10832, 'non-essential employee' is defined as a public employee or contractor that is not required to be physically present at a work site to perform their job

## Concept of Operations

The Village Mayor and the Deputy Mayor of the Village of Newark Valley, their designee, or their successor holds the authority to execute and direct the implementation of this plan. Implementation, monitoring of operations, and adjustments to the plan implementation may be supported by additional personnel, at the discretion of the Village Mayor and Deputy Mayor.

Upon the determination of implementing this plan, all employees and contractors of the Village of Newark Valley shall be notified via direct phone communication, with details provided as possible and necessary, with additional information and updates provided as needed. Any necessary persons will be notified of pertinent operational changes by way of phone or other methods approved by the Village Mayor or Deputy Mayor. Other interested parties, such as vendors, will be notified by phone and/or email as necessary. The Village Mayor and Deputy Mayor or Designees will maintain communications with the public and constituents as needed throughout the implementation of this plan.

The Village Mayor or Deputy Mayor of the Village of Newark Valley, their designee, or their successor will maintain awareness of information, direction, and guidance from public health officials and the Governor's office, directing the implementation of changes, as necessary.

Upon resolution of the public health emergency, the Village Mayor and Village Deputy Mayor, their designee, or their successor will direct the resumption of normal operations or operations with modifications, as necessary.

## Mission Essential Functions

When confronting events that disrupt normal operations, the Village of Newark Valley is committed to ensuring that essential functions will be continued even under the most challenging circumstances.

Essential functions are those functions that enable an organization to:

1. Maintain the safety of employees, contractors, and our constituency
2. Provide vital services
3. Provide services required by law
4. Sustain quality operations
5. Uphold the core values of the Town of Newark Valley

The Village of Newark Valley has identified as critical only those priority functions that are required or are necessary to provide vital services. During activation of this plan, all other activities may be suspended to enable the organization to concentrate on providing the critical functions and building the internal capabilities necessary to increase and eventually restore operations. Appropriate communications with employees, contractors, our constituents, and other stakeholders will be an ongoing priority.

Essential functions are prioritized according to:

- The time criticality of each essential function
- Interdependency of a one function to others
- The recovery sequence of essential functions and their vital processes

Priority 1 identifies the most essential of functions, with priority 4 identifying functions that are essential, but least among them.

The mission essential functions for the Village of Newark Valley have been identifies as:

Essential Function	Description	Priority
Village Board	Administers all the aspects of local government, including finances, public buildings, grounds, parks, streets, water systems and solid waste collections	1
DPW	Maintains and repairs the roadways related infrastructure, water system and solid waste collections	1
Clerk/Treasurer	Custodian of records	2
Code Enforcement	Enforces regulations to preserve and protect the quality of life and economy of the Village of Newark Valley	2
Planning Board	Manage growth and development in the Village of Newark Valley	4
Bookkeeping	Manage the accounts. Provides financial statements and other reports	1
Secretarial Duties	Provide clerical and administrative support.	1
Taxes/Water & Solid Waste Collection	Manages and collects the tax, water & solid waste bills.	1

## Essential Positions

Each essential function identified above requires certain positions on-site to effectively operate. The table below identifies the positions or titles that are essential to be staffed on-site for the continued operation of each essential function. Note that while some functions and associated personnel may be essential, some of these can be conducted remotely and do not need to be identified in this section.

Essential Function	Essential Positions/Titles	Justification for Each
Village Board	Clerk Treasurer	The Clerk/Treasurer is the chief fiscal officer of the Village, custodian of moneys and disburses them.
Village Mayor	Village Trustees	Responsible for preparing tentative annual budgets and is a Chair and voting member of the Board. The Trustees propose, pass, ratify laws and ordinances and oversee budgets
Working Supervisor of DPW	Highway Superintendent Staff	Coordinates and supervises the activities of staff and the use of materials in equipment in the construction and maintenance of roads, water system, solid waste collection, supervises snow removal, and assists in planning construction and maintenance schedules and workloads. Provides direct in-field supervision of employees working on all phases of construction, maintenance and repair operations and programs of the Public Works. Staff assists in the maintenance, repairs, and construction of the Water System & Public Works Dept.
Clerk	Village Clerk Deputy Village Clerk	Keeper of all the Village's public records.
Code Enforcement	Code Enforcer	Enforces regulations within the Village
Planning Board	Board Members	Makes recommendations on changes and development in the Village of Newark Valley
Collect Taxes	Treasurer	Manages and collects the Village tax, solid waste, and water bills

## Reducing Risk Through Remote Work and Staggered Shifts

Through assigning certain staff to work remotely and by staggering work shifts, we can decrease crowding and density at work sites.

### Remote Work Protocols

Non-essential employees and contractors able to accomplish their functions remotely will be enabled to do so at the greatest extent possible. Working remotely requires:

1. Identification of staff who will work remotely by the Village Mayor, Deputy Mayor, DPW Supervisor, and Clerk/Treasurer.
2. Approval and assignment of remote work by the Mayor, Deputy Mayor, DPW Supervisor and Clerk/Treasurer
3. Equipping staff for remote work, which may include:
  - a) Necessary Peripherals
  - b) Access to software and databases necessary to perform their duties
  - c) A solution for telephone communications  
i.e., Note that phone lines may need to be forwarded to off-site staff
  - d) Utilize email for communication
  - e) Utilize video conference platforms (i.e. – Zoom, Skype, Microsoft Teams, etc.) for remote meetings

### Staggered Shifts

Implementing staggered shifts may be possible for personnel performing duties which are necessary to be performed on-site but perhaps less sensitive to being accomplished only within core business hours. As possible, DPW Supervisor and Clerk/Treasurer will identify opportunities for staff to work outside core business hours as a strategy of limiting exposure. Regardless of changes in start and end times of shifts, the Village of Newark Valley will ensure that employees are provided with their typical or contracted minimum work hours per week. Staggering shifts requires:

1. Identification of positions for which work hours will be staggered.
2. Approval and assignment of changed work hours by the Supervisor of Public Works and Clerk/Treasurer

The staff will be staggered to work one week on, one week off when no essential work must be done, according to the instructions of the DPW Supervisor and Clerk/Treasurer. The Clerk/Treasurer and DPW Supervisor will coordinate with all other essential positions to schedule access to village office and work to be done remotely and on-site.

## Personal Protective Equipment

The use of personal protective equipment (PPE) to reduce the spread of infectious disease is important to supporting the health and safety of our employees and contractors. PPE which may be needed can include:

- Masks
- Face Shields
- Gloves
- Disposable gowns and aprons

Note that while cleaning supplies are not PPE, there is a related need for cleaning supplies used to sanitize surfaces, as well as hand soap and hand sanitizer. The Coronavirus pandemic demonstrated that supply chains were not able to keep up with increased demand for these products early in the pandemic. As such, we are including these supplies in this section as they are pertinent to protecting the health and safety of our employees and contractors.

Protocols for providing PPE include the following:

1. Identification of need for PPE based upon job duties and work location
2. Procurement of PPE
  - a. As Specified in the amended law, public employers must be able to provide at least two pieces of each required type of PPE to each essential employee and contractor during any given work shift for at least six months
  - b. Public employers must be able to mitigate supply chain disruptions to meet this requirement
3. Storage of, access to, and monitoring of PPE stock
  - a. PPE must be stored in a manner which will prevent degradation
  - b. Employees and contractors must have immediate access to PPE in the event of an emergency
  - c. PPE equipment will be located in the Village Clerk and DPW Supervisor Offices
  - d. The supply of PPE must be monitored to ensure integrity and to track usage rates by the Clerk/Treasurer and DPW Supervisor

## Staff Exposures, Cleaning, and Disinfection

### Staff Exposures

Staff exposures are organized under several categories based upon the type of exposure and presence of symptoms. Following CDC guidelines, we have established the following protocols:

- A. If employees or contractors are exposed to a known case of communicable disease that is the subject of the public health emergency (defined as a 'close contact' with someone who is confirmed infected, which is a prolonged presence within six feet with that person):
  1. Potentially exposed employees or contractors who do not have symptoms should remain at home or in a comparable setting and practice social distancing for the lesser of 14 days or other current CDC/public health guidance for the communicable disease in question.
    - a. As possible, these employees will be permitted to work remotely during this period of time if they are not ill.
    - b. The Mayor, Deputy Mayor must be notified of any other staff exposure and is responsible for ensuring these protocols.
    - c. The Mayor, Deputy Mayor must be notified if staff exposure of a DPW or Office employee and is responsible for ensuring these protocols are followed.
    - d. See the section titled Documentation of Work Hours and Locations for additional information on contact tracing.
  2. CDC guidelines for COVID-19 provide that critical essential employees may be permitted to continue work following potential exposure, provided they remain symptom-free and additional precautions are taken to protect them, other employees and contractors, and our constituency/public.
    - a. Additional precautions will include the requirement of the subject employee or contractor, as well as others working in their proximity, to wear appropriate PPE at all times, to limit the potential of transmission.
    - b. In-person interactions with the subject employee or contractor will be limited as much as possible.
    - c. Work areas in which the subject employee or contractor are present will be disinfected according to current CDC/public health protocol at least every hour, as practical. See the section on Cleaning and Disinfection for additional information on that subject.
    - d. If at any time they exhibit symptoms, refer to item B below.
    - e. The DPW Supervisor/Clerk/Treasurer are responsible for ensuring these protocols are followed by their respective employees.

- B. If an employee or contractor exhibits symptoms of the communicable disease that is the subject of the public health emergency:
1. Employee and contractors who exhibit symptoms in the workplace should be immediately separated from other employees, customers, and visitors. They should immediately be sent home with a recommendation to contact their physician.
  2. Employees and contractors who exhibit symptoms outside of work should notify their supervisor and stay home, with a recommendation to contact their physician.
  3. Employees should not return to work until they have met the criteria to discontinue home isolation per CDC/public health guidance and have consulted with a healthcare provider.
  4. The Village of Newark Valley will not require sick employees to provide a negative test result for the disease in question or healthcare provider's note to validate their illness, qualify for sick leave, or return to work; unless there is a recommendation from the CDC/public health officials to do so.
  5. CDC criteria for COVID-19 provides that persons exhibiting symptoms may return to work if at least 24 hours have passed since the last instance of fever without the use of fever-reducing medications. If the disease in question is other than COVID-19, CDD and other public guidance shall be referenced.
  6. The Mayor, Deputy Mayor, DPW Supervisor and Clerk/Treasurer are responsible for ensuring these protocols are followed by their respective employees.
- C. If an employee or contractor has tested positive for the communicable disease that is the subject of the public health emergency:
1. Apply the steps identified in item B, above, as applicable.
  2. Areas occupied for prolonged periods of time by the subject employee or contractor will be closed off.
    - a. CDC guidance for COVID-19 indicates that a period of 24 hours is ideally given before cleaning, disinfecting, and reoccupation of those spaces will take place. If this time period is not possible, a period of as long as possible will be given. CDC/public health guidance for the disease in question will be followed.
    - b. Any common areas entered, surfaces touched, or equipment used shall be cleaned and disinfected immediately.
    - c. See the section on Cleaning and Disinfection for additional information on that subject.
  3. Identification of potential employee and contractor exposures will be conducted
    - a. If an employee or contractor is confirmed to have the disease in question, the Mayor, Deputy Mayor, or their designee should inform all contacts of

their possible exposure. Confidentiality shall be maintained as required by the Americans with Disabilities Act (ADA).

- b. Apply the steps identified in item A, above, as applicable, for all potentially exposed personnel.
4. The Mayor, Deputy Mayor, DPW Supervisor, Clerk/Treasurer are responsible for ensuring these protocols are followed by their respective employees.

We recognize there may be nuances or complexities associated with potential exposures, close contacts, symptomatic persons, and those testing positive. We will follow CDC/public health recommendations and requirements and coordinate with their local public health office for additional guidance and support as needed.

### Cleaning and Disinfecting

CDC/public health guidelines will be followed for cleaning and disinfection of surfaces/areas. Present guidance for routine cleaning during a public health emergency includes:

1. As possible, employees and contractors will clean their own workspaces in the beginning, middle, and end of their shifts, at a minimum.
  - a. High traffic/high touch areas and areas which are accessible to the public/constituents will be disinfected at least hourly.
  - b. The Mayor, Deputy Mayor, DPW Supervisor, Clerk/Treasurer are responsible for the designees' common areas, and to determine the frequency of such cleaning.
2. Staff tasked with cleaning and disinfecting areas will be issued and required to wear PPE appropriate to the task.
3. Soiled surfaces will be cleaned with soap and water before disinfected.
4. Surfaces will be disinfected with products that meet EPA criteria for use against the virus in question and which are appropriate for that surface.
5. Staff will follow instructions of cleaning products to ensure safe and effective use of the products.

### Employee and Contractor Leave

Public health emergencies are extenuating and unanticipated circumstances in which the Village of Newark Valley is committed to reducing the burden on our employees and contractors. The *Families First Coronavirus Response Act* provided requirements related to the COVID-19 pandemic, and the Village of Newark Valley will follow these or any applicable mandate.

## Documentation of Work Hours and Locations

In a public health emergency, it may be necessary to document work hours and locations of each employee and contractor to support contact tracing efforts. Identification of locations shall include on-site work, off-site visits. This information may be used by the Village of Newark Valley to support contact tracing within the organization and may be shared with local public health officials.

Each person entering the Village Office or the DPW Barn will be required to sign a paper-based log to indicate their entering and leaving, unless they already record working hours in another acceptable and traceable fashion, such as a time clock. The Mayor, Deputy Mayor, DPW Supervisor & Clerk/Treasurer are responsible for handling and managing the information. The log information will only be used for contact tracing purposes.

## Housing for Essential Employees

There are circumstances within a public health emergency when it may be prudent to have essential employees lodged in such a manner which will prevent the spread of the subject communicable disease to protect these employees from potential exposures, thus helping to ensure their health and safety and the continuity of the Village of Newark Valley's essential operations.

If such a need arises, hotel rooms are expected to be the most viable option. If hotel rooms are for some reason deemed not practical or ideal, or if there are no hotel rooms available, the Mayor, Deputy Mayor, DPW Supervisor, Clerk/Treasurer will coordinate with the Tioga County Office of Emergency Management Services to help identify and arrange for these housing needs.
